

BIRDERS' WORLD

August 2004 • www.birdersworld.com

Richard Ettlinger

August 2004 • Vol. 19 No. 4

On Our Cover: The lively Buff-bellied Hummingbird is a regular in the lower Rio Grande Valley and in southeast Texas. You can read more about the inspiring tiny bird on page 26. Photo by Cliff Beecher.

Features

**30 Backyard Makeover
A Haven for Hummingbirds**
How a hummingbird inspired a Texas couple to transform their property into a showplace for attracting birds and other wildlife. *By Connie Toepf*

**36 Attracting Birds
Premier Perches**
You can make your backyard a hotspot by adding simple perches that birds will flock to. *By Lillian and Don Stokes*

**38 Birding Hotspot
Prairie Treasures**
Six locations near Houston where you can enjoy the remarkable birds of Texas's coastal prairies. *By Gary Clark*

**44 Species Profile
Nature's Clown**
Why the Blue Jay might be the most misunderstood, and most entertaining, bird at your feeder. *By Laura Erickson*

**50 Photo Contest
Birds of a Feather Pictured Together**
The winners of our annual photo contest: 10 beautiful portraits of birds in flight and in their glory.

Columns

12 Since You Asked *Julie Craves*
How quickly birds replace lost feathers, and what you can do to keep a hawk from terrorizing birds at your feeders.

20 Birder at Large *Pete Dunne*
Why you must look up when you're at the Grand Canyon.

26 Up Close and Personal *George H. Harrison*
Barn Swallow: our long-winged, fork-tailed bird of summer.

58 Those Amazing Birds *Eldon Greij*
For many birds, rearing healthy chicks takes a village.

62 Birds on the Move *Paul Kerlinger*
Why so many migrating birds fly at night, not in the day.

66 Gardening for Birds *Connie Toepf*
To attract birds, use color the way an artist uses paint.

70 ID Tips *Kenn Kaufman*
Tell apart Black- and Yellow-crowned Night-Herons.
